## **Natural Resources Conservation Service**

# Application Ranking Summary NWQI\_Ammonosuc River

Program: EQIP 2014	Ranking Date:	Application Number:
Ranking Tool: NWQI_Ammonoosuc River		Applicant:
Final Ranking Score:		Address:
Planner:		Telephone:
Farm Location:		

#### **National Priorities Addressed**

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering "Yes" to the following question. Answering "Yes" to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.	_
1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other national level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	250 Point(s)
Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)	
2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	15 Point(s)
2. b. Implementing the practices in a Nutrient Management Plan (NMP)?	10 Point(s)
2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated "impaired water body" (TMDL, 303d listed waterbody, or other State designation)?	10 Point(s)
2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a "non-impaired water body"?	10 Point(s)
2. e. Implementing practices that improve water quality through animal mortality and carcass management?	10 Point(s)

Water Conservation – Will the proposed project	
conserve water by: (select all that apply)	
3. a. Implementing irrigation practices that	15 Point(s)
reduce aquifer overdraft.	
3. b. Implementing irrigation practices that	10 Point(s)
reduce on-farm water use?	
3. c.Implementing practices in an area	10 Point(s)
where the applicant participates in a	
geographically established or watershed-	
wide project?	
3. d. Implementing practices that reduce on-	10 Point(s)
farm water use as a result of changing to	
crops with lower water consumptive use,	
the rotation of crops, or the modification of	
cultural operations?	
cultural operations.	
Air Ovolity Will the access of a control of	
Air Quality - Will the proposed project improve	
air quality by: (select all that apply)	10 D 1 (/)
4. a. Meeting on-farm regulatory	10 Point(s)
requirements relating to air quality or	
proactively avoid the need for regulatory	
measures?	
4. b. Implementing practices that reduce on-	10 Point(s)
farm emissions of particulate matter	
(PM2.5, PM10)?	
4. c.Implementing practices that reduce on-	10 Point(s)
farm generated greenhouse gases such as	
carbon dioxide (CO2), methane (CH4), and	
nitrous oxide (N2O)?	
4. d. Implementing practices that increase	10 Point(s)
on-farm carbon sequestration?	
Soil Health: Will the proposed project improve	
soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits	10 Point(s)
(Soil "T")?	·V·/
5. b.Increasing organic matter and carbon	10 Point(s)
content, and improving soil tilth and	(0)
structure?	
Wildlife Habitat – Will the proposed project	
improve wildlife habitat by: (select all that	
apply)	
	10 Point(a)
6. a. Implementing practices benefitting	10 Point(s)
threatened and endangered, at-risk,	
candidate, or species of concern.	

<ul> <li>6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation Reserve Program (CRP) or other set-aside program?</li> <li>6. c. Implementing practices benefitting honey bee populations or other pollinators?</li> <li>6. d. Implementing land-based practices</li> </ul>	10 Point(s)  10 Point(s)  10 Point(s)
that improve habitat for aquatic wildlife?  Plant and Animal Communities: Will the	
proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	10 Point(s)
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	10 Point(s)
Energy Conservation— Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	10 Point(s)
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	10 Point(s)
Business Lines – Will the practices to be scheduled in the "EQIP Plan of Operations" result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	10 Point(s)

#### **State Issues Addressed**

Responses

1. Is the program application for	400 Point(s)
development of a TSP-prepared	
Conservation Activity Plan (CAP)? If	
answer is "Yes", do not answer any other	
State-level questions. If answere is "No"	
proceed with evaluation to address the	
÷	
remaining questions in this section.	
Water Quality -EPA Watersheds:	
2. Does the application include core	100 Point(s)
conservation practices that will be	
implemented within 1/4 mile of a stream or	
water body that is threatened (i.e., recieves	
significant runoff of excess nitrogen and/or	
Phosphorous), on the EPA 303 (d) list, or	
is impaired with a TMDL in place and	
•	
therefore not on the 303 (d) list or other	
critical stream or water body authorized by	
the Regional Conservationist?	
Geographic Impacts:	
3. Are more than 75 percent of the acres	125 Point(s)
treated? i. Located within a NWQI	
watershed AND ii. Do they have at least	
one core conservation practice planned on	
them?	
Collaborative Efforts:	
4. Are core conservation practices planned	75 Point(s)
for the applicant's treated acres within an	7.5.1 Olit(3)
existing non-USDA water quality project	
area addressing the same or similar	
pollutants?	
Effort to address watershed impairments:	
5. Does this program application include	50 Point(s)
the implementation of a system of	
conservation practices which address the	
NWQI primary resource concerns?	
High Risk Soils:	
6. Are core conservation practices to be	50 Point(s)
implemented on offered acres with a	
majority of soil types that are classified	
hydrologic group D (high runoff) or group	
A (high infiltration)?	
Local Issues Addressed	

Responses

**Issue Questions** 

<ol> <li>Is the program application for development of a TSP prepared Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any of the other State level questions. If the answer is "No", proceed with evaluation to address the remaining questions in this section.</li> <li>Will the application enhance an existing riparian buffer with tree and shrub planting (willow live stakes), create a buffer with practice (391), or install a filter strip within 35 feet of the</li> </ol>	250 Point(s)  35 Point(s)
water's edge?  3. Does the application include implementation of nutrient management, IPM, prescribed grazing, irrigation water management or other management practice with water quality benefits as recommended in an existing management (e.g. plan)?	20 Point(s)
4. Does the application include a practice or system of practices to improve water quality degraded by nutrients or sediment from a livestock operation?	20 Point(s)
5. Are practices included in the application that will move animals 35 feet from surface water, wetlands, or other sensitive areas?	20 Point(s)
6. Does this application include diversion or roof runoff practices and appropriate outlets to "keep clean water clean"?	30 Point(s)
7. Does the application include cover crops on at least 50% of all owned and rented cropland, or at least 50 acres?	30 Point(s)
8. Does the application include a legume or multispecies (at least 3 species) cover crop on at least 25% of all owned and rented cropland, or at least 25 acres?	`,
9. Does the application include practices that convert corn to hay on floodplains for the 5 year lifespan? Do NOT answer YES to both Local 9 and 10.	35 Point(s)
10. Does the application include practices that convert corn to hay for the 5 year lifespan? Do NOT answer YES to both Local 9 and 10.	10 Point(s)
11. Does the application include conservation crop rotation?	20 Point(s)

12. Does the application include forage and biomass planting (on hayland) to address resource concerns (overall rating of <30 - fair) identified on the NH Pasture & Hayland Condition Score Sheet?	10 Point(s)
13. Does the application include Grazing Land Mechanical Treatment to alleviate surface compaction and/or facilitate overseeding?	10 Point(s)
